

TECHNICAL SHEET

13/12/2025

Sash assembly centre for installing hardware on PVC and aluminium window sashes. Ergonomic fixing of hardware in a very short time. Sash assembly table for measuring and cutting to length of hardware components. Optimisation of sash processing by carrying out various work tasks at a single workstation. Assembly table can be tilted pneumatically. The sash, measurement and centring units can be moved pneumatically. Gear cropper with stops for a centred and consistent handle position. Two stop blocks for different sash widths. Mobile screwing unit with pneumatic height adjustment.

Manual insertion funnel for second screw length. Automatic depth shutoff. Screw feed unit. Table supporting surface with plastic slide bars.

(someco)

TECHNICAL SHEET

Supporting surfaces

Supporting surfaces with plastic slide bars

Screwing unit

Mobile screwing unit with pneumatic height adjustment. Manual insertion funnel for second screw length. Automatic depth shutoff

Stop block

Two stop blocks for two sash widths

Gear cropper

Gear cropper with stops for a centred and consistent handle position. Gear cropper with open cutting tool

Screw feed unit

Screw feed unit with automatic screw feeding

Stop block (Optional)

Stop blocks for additional sash widths

Voilàp S.p.A. Via Archimede, 10 41019 - Limidi di Soliera (MO) Tel 059 895411 Fax: 059 859404 P.IVA e C.F. 02057270361 info@somecopvc.com www.somecopvc.com

Laser unit (Optional)

Laser for screw driving position

Hinge drilling unit (Optional)

Hinge drilling unit with adjustable twospindle boring head, pneumatic height adjustment, with stops for the left and right drilling positions

Handle hole drilling unit (Optional)

Handle hole drilling unit installed at a fixed position with hydro-pneumatic drill feed and clamping unit; 3-spindle boring head

Lock case milling unit (Optional)

Milling unit can be moved manually with stop for lock case milling. Cutter diameter 12 mm

Folding stops (Optional)

Stop rail with 14 folding stops for a consistent handle position (7x left, 7x right)

Hardware rack (Optional)

For orderly hardware storage at the sash assembly station
